

Position: Enterprise Project Management Consultant (Required)

Location: Jacksonville, FL (Required)

Duration: Contract (Required)

Expiration: 7/25/2011 (Date to remove positing. Default 2 months)

Company Description (5 lines max): (Optional)

Pcubed is different. We are a worldwide consulting organization focused on improving execution and resource management. Our consultants have successfully delivered over \$40B of client projects helping a quarter of the Fortune 500 transform strategic ideas into reality. We are experienced practitioners, applying our industry knowledge, our expertise and ingenuity to bring insight and leadership to get results.

Position Descriptions (required skills) include: (Required)

We are entering a very exciting time at Pcubed and are seeing the number of program management opportunities explode. To support the number of open engagements, we are looking to expand our network of contract program management consultants. We are looking for self-starting project management professionals that we can rely on to deliver outstanding results for our clients.

A successful candidate will possess strong technical skills in Enterprise Program and Portfolio Management (EPM) tools combined with core business process knowledge. We are looking for those individuals who can straddle the gap between business and technical teams, using their core skill set and some creativity to provide practical and user friendly solutions to the challenges proposed.

We have a number of positions available including Senior EPM Consultants, EPM Solution Architects, EPM Developers and Portfolio Managers. Specific job functions will depend on the opportunity.

Required Qualifications include: (Required)

- + US Citizenship, Permanent Residence
 - + Experience deploying and configuring MS Project Server and SharePoint 2007/10
 - + Advanced skills in MS Project
 - + 6-10 years in project management
 - + Excellent writing & verbal skills
-

Preferred Qualifications include: (Optional)

- + PMI PMP
 - + Portfolio optimization and management experience
 - + PMO and reporting experience
 - + Business process improvement
 - + Presentation to senior executives
 - + Coaching and training skills
 - + Experience developing Solution Architecture diagrams for Microsoft EPM 2007/10
-

+ MSP Developer skills including C#, Java, HTML, SRS, workflows and InfoPath forms
+ Bachelor's degree
